AIM Integration With Tools

- AIM looks to integrate/share data with tools and systems in these categories
  - Requirements/ “Skilling”
  - Development
  - Repository
  - Deployment
  - Assessment
- Preferred linking method
  - XML/SCORM via repository

Requirements/Skilling Tools Integration

- Requirements will be driven from NMETLs
  - Mandated by CINC
  - Ideally NMETL data will be passed to “Skilling” or Job Task Analysis tools
    - SkillsNet
    - MTL/CTP
    - CSIN JTA
    - AMTCS
    - Naval Aviation Simulation Master Plan (NASMP)
    - MindManager

Develop Tools Integration

- Development tools will receive training/performance tasks and NMETL links from Skilling/JTA Tools
  - AIM
  - Web-Based Training Authoring tools
  - Electronic Performance Support System Authoring tools

Repository Tool Integration

- Repository tools will receive training/performance content, tasks and NMETL links from development tools
  - Navy Repository System
    - OutStart *Evolution*

Deployment Tools Integration

- Deployment tools will receive content from repository tool
- Deployment tools include:
  - Navy E-Learning Network
    - ThinQ LMS
  - Electronic Classroom Integration Systems
  - Others

Assessment Tools Integration

- Assessment tools will use NMETLs links to tie to other systems
- Assessment tools include:
  - Quantitative Fleet Feedback (QFF)
    - Level 3 & 4 assessment
  - Commercial Assessment Systems
    - Level 1 & 2 assessment

AIM Integration Ready

- AIM has been designed from the ground up with integration in mind
- It is ready now to work effectively with all the tools discussed
